

# **Syllabuses of Subjects offered by AMA, APSS, CBS, ELC and FB C O N T E N T S**

*\*The most updated subject syllabuses are available on web.*

<b>Subject code</b>	<b>Title</b>	<b>Page</b>
AMA1500	Foundation Mathematics for Accounting and Finance	1
AMA1501	Introduction to Statistics for Business	4
APSS111	Introduction to Psychology	8
APSS112	Introduction to Sociology	13
CBS3221P	Chinese Language Communication for Business	17
ELC3221	Workplace English for Business Students I	20
ELC3222	Workplace English for Business Students II	23
FB1003	Freshman Seminars	26
FB3001	Work-Integrated Education	28

## Subject Description Form

<b>Subject Code</b>	AMA1500
<b>Subject Title</b>	Foundation Mathematics for Accounting and Finance
<b>Credit Value</b>	3
<b>Level</b>	1
<b>Pre-requisite/ Co-requisite/ Exclusion</b>	Nil
<b>Objectives</b>	The lectures aim to provide students of Accounting & Finance with basic knowledge of mathematics required for the understanding of quantitative methods and other concepts in their discipline. To develop students' ability for logical thinking and effective communication, tutorial sessions will be held.
<b>Intended Learning Outcomes</b>	<p>Upon completion of the subject, students will be able to:</p> <ul style="list-style-type: none"> <li>(a) apply mathematical reasoning to analyze essential features of different mathematical problems arising from business and economics;</li> <li>(b) make use of the knowledge of mathematical techniques and adapt known solutions to various situations;</li> <li>(c) use mathematical modeling in problem solving;</li> <li>(d) demonstrate abilities of logical and analytical thinking.</li> </ul>
<b>Subject Synopsis/ Indicative Syllabus</b>	<ul style="list-style-type: none"> <li>(1) <i>Sets</i>: Set notations, elements and subsets, power sets, ordered pairs, relations and functions, equivalence relations.</li> <li>(2) <i>Elementary functions</i>: Polynomials, rational functions, exponential and logarithmic functions.</li> <li>(3) <i>Limits and continuity</i>: Intuitive concepts about limit of a function at a point, left-hand and right-hand limits, simple limit theorems, some special limits. Concept of a continuous function, some special properties of real valued continuous functions on an interval.</li> <li>(4) <i>Differential Calculus and applications</i>: Concept of derivatives and differentials, rules of differentiation, L'Hopital's rule, maxima and minima, applications to curve sketching. Partial derivatives and the chain rule, implicit differentiation, constrained optimization.</li> </ul>

	(5) <i>Integral Calculus</i> : Indefinite integrals as anti-derivatives, rules of integration, techniques of integration. Definite integrals as limits of sums, Fundamental theorem of calculus, integration by parts and reduction formulas. Applications.																																
<b>Teaching/Learning Methodology</b>	A two hour mass lecture will be conducted each week to initiate students into the ideas, concepts and techniques of the topics in the syllabus, which is then reinforced by a one hour tutorial designed to consolidate and develop students' knowledge through discussion and practical problem solving.																																
<b>Assessment Methods in Alignment with Intended Learning Outcomes</b>	<table border="1"> <thead> <tr> <th rowspan="2">Specific assessment methods</th> <th rowspan="2">% weighting</th> <th colspan="4">Intended subject learning outcomes to be assessed (Please tick as appropriate)</th> </tr> <tr> <th>a</th> <th>b</th> <th>c</th> <th>d</th> </tr> </thead> <tbody> <tr> <td>1. 	1. Continuous Assessment	40%	✓	✓	✓	✓																											
	2. Examination	60%	✓	✓	✓	✓																											
Total	100%																																
Continuous Assessment comprises of assignments, in class quizzes, online quizzes and a mid-term test. A 3-hour examination is held at the end of the semester.																																	
Questions used in assignments, quizzes, tests and examinations are used to assess the student's level of understanding of the basic concepts and their ability to use mathematical and numerical techniques in solving problems in various disciplines.																																	
To pass this subject, students are required to obtain grade D or above in both the continuous assessment and the examination components.

### Subject Description Form

<b>Subject Code</b>	AMA1501
<b>Subject Title</b>	Introduction to Statistics for Business
<b>Credit Value</b>	3
<b>Level</b>	1
<b>Pre-requisite/ Co-requisite/ Exclusion</b>	Nil
<b>Objectives</b>	<p>This subject aims to:</p> <ul style="list-style-type: none"> <li>(i) provide students with a variety of basic techniques in understanding and interpreting data;</li> <li>(ii) allow students to develop skills in analyzing scenarios and problems in commerce and industry by applying statistical methods. The emphasis will be on applications of elementary statistical methods to commerce and industry.</li> </ul>
<b>Intended Learning Outcomes</b>	<p>Upon completion of the subject, students will be able to:</p> <ul style="list-style-type: none"> <li>a. use a variety of basic techniques in understanding and interpreting data;</li> <li>b. apply elementary statistical methods in analyzing business scenarios and problems;</li> <li>c. think critically and creatively about the uses and limitations of statistical methods in business;</li> <li>d. use statistical package and interpret the output, appreciate the applications of information technology for statistical analysis in business.</li> </ul>
<b>Subject Synopsis/ Indicative Syllabus</b>	<p><b>Descriptive Statistics</b> Presentation of business data in tabular, diagrammatic and graphic forms; misleading presentations. Summary measures of location and spread.</p> <p><b>Probability</b> Concepts of probability. Probability rules. Bayes' Theorem. Random variables and expected values; uses and limitations in decision making. Common probability distributions: Binomial, Poisson and Normal.</p> <p><b>Estimation</b> Simple random samples. Sampling distributions: mean, proportion and</p>

	<p>differences. Confidence intervals: mean, proportion and differences.</p> <p><b>Hypothesis Testing</b> Hypothesis testing: mean, proportion and differences.</p> <p><b>Chi-square Test</b> Test of goodness of fit. Test of independence.</p> <p><b>Relationships between Variables</b> Exploratory data analysis. Linear relationships: ordinary least squares. Correlation coefficients.</p> <p><b>Multiple Regression</b> Multiple regression equation. Inferences about parameters. Modelling techniques</p>																																		
<p><b>Teaching/Learning Methodology</b></p>	<p>The lectures aim to provide the students with an integrated knowledge required for the understanding and application of statistical concepts and techniques. To develop students' ability for logical thinking and effective communication, tutorial and presentation sessions will be held.</p>

Brief Overview of Personality Theories, Research and Assessment</p> <p>12. Key Issues of Health, Stress and Coping</p> <ul style="list-style-type: none"> <li>- Effects of Stress on Psychological Functioning and Physical Health</li> <li>- Factors Moderating the Impact of Stress</li> <li>- Reactions to Illness</li> </ul> <p>13. Psychological Disorders – Diagnosis &amp; Treatment</p> <ul style="list-style-type: none"> <li>- Brief Overview of Abnormal Behavior: Myths, Realities and Controversies</li> <li>- Culture and Psychopathology</li> <li>- Elements of the Treatment Processes</li> <li>- Current Trends and Issues in Treatment</li> </ul>
<p><b>Teaching/Learning Methodology</b></p>	<p>Both face-to-face lectures and web-assisted lecture notes are directly delivered and prepared by the subject teacher. The web-assisted learning and teaching activities are designed to encourage students' self-study after lectures. The subject lecturer is committed to strike a flexible balance of interactive activities through direct student-teacher contact, web-assisted self-assessment, in-class exercises, small group discussions, role-play and case illustration. Multi-media materials are used to facilitate learning.</p> <p>Web-assisted quizzes are arranged to enhance students' understanding of the psychological concepts acquired from the lectures, web-assisted deliverables and assigned readings. These methods are considered as both a supplement to 13 lectures and a self-learning tool for reinforcing students' integration and internalization. Prompt feedback can be provided for each student after taking the web-based assessment and practice quizzes. The on-line forum may also provide a platform for interactive discussions among students, and for exchanging views with the subject lecturer.</p> <p>Students are also required to take part in 3 hours of psychological experiments, so that they learn how empirical studies are conducted in real contexts.</p>

Assessment Methods in Alignment with Intended Learning Outcomes	Specific assessment methods/tasks	% Weighting	Intended subject learning outcomes to be assessed (Please tick as appropriate)				
			a	b	c	d	e
	Quizzes	40%	✓	✓	✓		✓
	Written Assignments	40%	✓	✓	✓		✓
	Class Participation	20%	✓	✓	✓	✓	✓
	Total	100 %*					

\*The grade is calculated according to the percentage assigned.

Explanation of the appropriateness of the assessment methods in assessing the intended learning outcomes:

**Assignments of Web-based Practice and Assessment Quizzes**  
Continuous assessment is adopted, and methods include practice and assessment quizzes assigned through the PolyU Blackboard learning system after lectures, which should cover the subject syllabus and essential reading requirements. They may be designed in the form of multiple-choice and/or short-question formats. The web-assisted interactive methods are used to assess students' learning at the recall, comprehension, analysis and application levels, that are adaptable for a wide range of course contents and learning outcomes.

**Term Paper /Research Participation**  
Students will be provided with hands-on opportunities in participating in psychological research studies, select one thematic lecture topic for writing a term paper and reflect on how psychology helps the study of their disciplinary domain and professional practice. All these experiential learning and evidence-based research experience would enhance students' understanding of the essential theoretical and empirical knowledge of the psychological theories acquired in lectures as well as their indigenous and global trends. Writing a term paper and participating in psychological research enable students to apply and integrate psychological theories into the real-life practice.

**Coursework** is based on continuous assessment. Both the quizzes and term papers are set for all students who are required to demonstrate their level of psychological knowledge learned from this introductory subject.

Assessment is also moderated through various means: (1) setting clear and specific assessment guidelines; (2) regular discussions among the subject lecturer and all supportive staff concerned; and (3) moderation by an internal moderator for this subject.

<b>Student Study Effort Expected</b>	▪ Lecture	39 Hrs.
	Other student study effort:	
	▪ Web-based quizzes	3 Hrs.
	▪ Self-reading	28 Hrs.
	▪ Preparation for term paper and web-based quizzes	47 Hrs.
	▪ Psychological experiments	3 Hrs.
	Total student study effort	120 Hrs.

<b>Objectives</b>	The subject aims to help students understand how society works, and the extent to which they are influenced by society. Unlike the conventional introductory course, it adopts a distinct approach, which tries to make learning a process of personal discovery. It will try to build this discovering process on the solid base of students' everyday experience.											
<b>Intended Learning Outcomes</b> <i>(Note 1)</i>	Upon completion of the subject, students will be able to: <ol style="list-style-type: none"> <li>a. cultivate a linkage between sociology and real life;</li> <li>b. paint the origin, historical development, and essence of sociology ;</li> <li>c. give an educated criticism over social issues beyond commonsensical viewpoints.</li> </ol>											
<b>Subject Synopsis/ Indicative Syllabus</b> <i>(Note 2)</i>	<ol style="list-style-type: none"> <li>1. Nature and Birth of sociology</li> <li>2. Sociological theories</li> <li>3. Sociological enquiry</li> <li>4. Thematic discussions:               <ul style="list-style-type: none"> <li>- <u>Culture, groups and social construction of reality</u></li> </ul>               Culture, language symbols, values, norms, subculture, counterculture, ethnocentrism             </li> </ol>											

	<p>- <u>Socialization, deviance and social control</u></p> <p>Socialization, looking-glass self, role-taking, agents of socialization, total institution, re-socialization, social control</p> <p>- <u>Social stratification</u></p> <p>Structural poverty, social stratification, social inequality, social mobility, class, ideology</p> <p>- <u>School education</u></p> <p>Urbanization, industrialization, democratization and schooling; mass education as a means of social stratification; mass education as a means of social control</p> <p>- <u>Sex, gender and family</u></p> <p>Gender, gender stereotype, sexism, gender socialization, agents of socialization; feminism and social changes; family, kinship, marriage, nuclear family, functions of family, disintegration of family</p> <p>- <u>Religion</u></p> <p>Religion and modernization; religion and social stability; religion and social movements</p> <p>- <u>Globalization and technological advancement</u></p> <p>Social change, personal vs. impersonal relationship, symbols, communication of intention and emotion; bureaucracy; rationality and McDonaldization</p>																																						
<p><b>Teaching/Learning Methodology</b></p> <p><i>(Note 3)</i></p>	<p>Formal lectures will be conducted throughout the subject to involve students' participation for effective learning. Specific issues will be discussed in lectures to deepen students' understanding about the sociological concepts introduced in lectures, and to help them understand the importance of critical thinking. Movie sessions and workshops will be introduced whenever possible to cultivate interactive learning experience. The lecturer will give guidance, feedback, and comments to the student involved during the entire process.</p>

Note 1: Intended Learning Outcomes

Intended learning outcomes should state what students should be able to do or attain upon completion of the subject. Subject outcomes are expected to contribute to the attainment of the overall programme outcomes.

Note 2: Subject Synopsis/ Indicative Syllabus

The syllabus should adequately address the intended learning outcomes. At the same time over-crowding of the syllabus should be avoided.

Note 3: Teaching/Learning Methodology

This section should include a brief description of the teaching and learning methods to be employed to facilitate learning, and a justification of how the methods are aligned with the intended learning outcomes of the subject.

Note 4: Assessment Method

This section should include the assessment method(s) to be used and its relative weighting, and indicate which of the subject intended learning outcomes that each method purports to assess. It should also provide a brief explanation of the appropriateness of the assessment methods in assessing the intended learning outcomes.

## Subject Description Form

<b>Subject Code</b>	CBS3221P
<b>Subject Title</b>	Chinese Language Communication for Business
<b>Credit Value</b>	3
<b>Level</b>	3
<b>Pre-requisite / Co-requisite/ Exclusion</b>	Nil
<b>Objectives</b>	This subject develops the students' competence to use Putonghua and written Chinese at a level of effectiveness sufficient for general business communications.
<b>Intended Learning Outcomes</b>  <i>(Note 1)</i>	<p>Upon completion of the subject, students will be able to:</p> <ol style="list-style-type: none"> <li>a. communicate in Putonghua for various speech functions such as introducing, negotiating, clarifying, and persuading, in professional context of business;</li> <li>b. write various practical genres in written Chinese such as letter / e-mail, notice, guideline, notice, news release, poster, pamphlet, and declaration for internal and external communications;</li> <li>c. give formal presentation in Putonghua for the purpose of introduction, promotion, explanation, and the like;</li> <li>d. produce proposal on professional topic in written Chinese that is and is feasible and is highly readable to non-expert readers.</li> </ol>
<b>Subject Synopsis/ Indicative Syllabus</b>  <i>(Note 2)</i>	<ol style="list-style-type: none"> <li>1. Oral communication for self introduction, establishing social rapport, dealing with business, and negotiation in context of trading;</li> <li>2. formal presentation with multimedia materials to industrial clients and the public for marketing;</li> <li>3. practical Chinese writing in wide range of genres for both internal management and external relations such as letters of invitation, thanks, request, response to complaints; notice, guideline, press release, speech draft, poster, and pamphlet;</li> <li>4. professional related literacy in written Chinese such as reading of academic papers, reports and proposal; writing of professional report and proposal which are readable to expert or non-expert readers.</li> </ol>

<p><b>Teaching/Learning Methodology</b></p> <p>(Note 3)</p>	<p>The subject will take an interactive approach between teacher and student by assigning group collaboration, individual presentation, and group/class discussion. Teaching materials will be presented in both printed and audio-visual modes. For the training of accuracy in spoken and written presentation, students will be supplemented with materials in self-access modules. Teacher consultation will be offered on individual needs, and the lessons will be delivered in Putonghua.</p>

### Subject Description Form

<b>Subject Offering Department</b>	FB								
<b>Subject Code</b>	FB1003								
<b>Subject Title</b>	Freshman Seminars								
<b>Credit Value</b>	3								
<b>Level</b>	1								
<b>Normal Duration</b>	2-semester; 6 sessions in alternate week in each semester								
<b>Pre-requisite and/or Exclusion(s)</b>	None								
<b>Objectives</b>	The role and purpose of this subject is to contribute to the BBA Learning Outcomes which concern Creative Thinking, Ethics, Entrepreneurship and Global Outlook.								
<b>Intended Learning Outcomes</b>	<p>Upon completion of the subject, students will be able to:</p> <p>(a) evaluate their own entry-level performance with respect to the 'generic' learning outcomes which are to be achieved in all of the BBA programmes</p> <p>(b) apply more creative thinking to their university studies</p> <p>(c) identify the major ethical issues which arise in respect of university life and understand their own level of ethical reasoning</p> <p>(d) understand the nature of Business and management education and the structure, standing and direction of the Faculty of Business</p> <p>(e) describe the entrepreneurship process and different entrepreneurial skills</p> <p>(f) demonstrate awareness of global issues in business practice</p>								
<b>Subject Synopsis/ Indicative Syllabus</b>	<ul style="list-style-type: none"> <li>▪ From School to University</li> <li>▪ Entrepreneurship Project</li> <li>▪ The Nature of Business and Management</li> <li>▪ Developing a Global Outlook</li> </ul>								
<b>Teaching/Learning Methodology</b>	<p>Workshops of three hour duration will be held, during which students will participate in both group and individual-level activities, designed to meet the outcomes of this subject. That will include the administration and analysis of various direct measures of the learning outcomes specified for the BBA programmes.</p> <p>Students are also required to complete online questionnaires/exercises, and two 5Alive workshop activities which can be held during the day or evenings or Saturdays.</p>								
<b>Assessment Method</b> Marks or grades will be allocated across the assessment tasks as shown in the table as deemed appropriate.	Specific assessment methods/tasks	% weighting	Intended subject learning outcomes to be assessed (Please tick as appropriate)						
			<b>a</b>	<b>b</b>	<b>c</b>	<b>d</b>	<b>e</b>	<b>f</b>	
	1. Class participation and attendance	15%	√	√	√	√	√	√	
2. Individual Assignment (Self-appraisal)	35%	√	√	√	√				

	3. Group Assignment (Entrepreneurship Project)	50%		√	√		√	√	
	Total	100 %							
<p>This subject will be assessed through : One individual assignment (student appraisal supported by evidence and activity records and artifacts); and one group assignment (performance in the Entrepreneurship Project).</p> <p>To help student understand the importance of academic honesty and learn ways to ensure that their work and behaviour at PolyU are acceptable in this regard, the Online Tutorial on Academic Integrity is provided for students in this subject. Students will need to complete the Tutorial by Week 5. The Online Tutorial can be accessed on LEARN@PolyU (理學網). It takes approximately two hours to complete. <u>The Online Tutorial is part of the subject completion requirement. Students who fail to complete the Online Tutorial will fail this subject.</u></p> <p>The minimum passing grade in this subject is D.</p>									
<b>Student Study Effort Expected</b>	Class contact:								
	▪ Seminar	36 Hrs.							
	▪ Workshop	6 Hrs.							
	Other student study effort:								
	▪ Preparation for seminars and workshops, and completion of online questionnaires/exercises	28 Hrs.							
	▪ Group assignment preparation	28 Hrs.							
	▪ Individual assignment preparation	28 Hrs.							
Total student study effort	126 Hrs.								
<b>Reading List and Reference</b>	<p>The content of the subject will be supported by both on-line and hard copy materials. The former will provide short videos, exercises and development tools for students to complete for each module. The latter will include case studies and vignettes.</p>								

28 Aug 2013

## Subject Description Form

<b>Subject Code</b>	FB3001
<b>Subject Title</b>	Work-Integrated Education
<b>Credit Value</b>	3 Training Credits
<b>Level</b>	3
<b>Pre-requisite / Co-requisite/ Exclusion</b>	Nil
<b>Objectives</b>	Work-Integrated Education (WIE) is “work-based learning experiences which take place in an organizational context relevant to a student’s future profession, or the development of generic skills that will be valuable in that profession.” An essential and compulsory component in the Faculty’s BBA education, WIE facilitates the integration of knowledge, skills, and competences between the classroom and the real-world, thus equipping students with valuable work experience as well as practical readiness for full-time employment upon graduation.
<b>Intended Learning Outcomes</b>	<p>At the end of WIE, the student should be able to:</p> <p><b>1.1 Areas of Personal Development</b></p> <ol style="list-style-type: none"> <li>a. Appreciate his/her own learning style and determine the best approach to enhancing his/her learning;</li> <li>b. Appreciate his/her own learning and development needs and chart his/her learning and development plan for the next 3-5 years;</li> <li>c. Make informed choices/preferences for his/her career and formulate a suitable plan for achieving it;</li> </ol> <p><b>1.2 Areas of Workplace Appreciation</b></p> <ol style="list-style-type: none"> <li>a. Understand the issues involved in the practical application of the skills, knowledge and information acquired in the University environment;</li> <li>b. Appreciate the requirements and demands of the real-world work environment, especially in the industry/sector where WIE was done so as to facilitate the smooth transition to full-time employment after graduation;</li> <li>c. Identify factors in organizational culture that influences sustainable competitive advantage, excellence, and progress.</li> </ol> <p><b>1.3 Areas of Key Skills</b></p> <ol style="list-style-type: none"> <li>a. Develop strategic approaches to anticipate and handle challenges;</li> </ol>

	<ul style="list-style-type: none"> <li>b. Analyze problems and strategize solutions;</li> <li>c. Appreciate the computing skills he/she has acquired, determine areas that require further development, and make plans to achieve them;</li> <li>d. Communicate effectively and confidently;</li> <li>e. Work effectively individually as well as in teams.</li> </ul>	
<b>Subject Synopsis/ Indicative Syllabus</b>	<ul style="list-style-type: none"> <li>▪ Students may choose to fulfill the 300-hour requirement through placements in one or more organizations OR through one or more eligible WIE activities. The 300 hours of internship work is approximately equivalent to 8 weeks of full-time internship engagement.</li> <li>▪ As with every course of study in their degree programme, students should note that it is their responsibility to secure the necessary 3 WIE training credits for graduation.</li> </ul>	
<b>Teaching/Learning Methodology</b>	Experiential Learning and Reflection	
<b>Assessment Methods in Alignment with Intended Learning Outcomes</b>	<ul style="list-style-type: none"> <li>▪ WIE Subject Administration will be handled by School/Department correspondingly.</li> <li>▪ Assessment of WIE will be on a pass/fail basis, based upon: <ul style="list-style-type: none"> <li>a. An initial statement from the student on the objectives and duration of the work; and</li> <li>b. A statement from the student's employer(s) confirming the duration of the work and satisfactory performance; and</li> <li>c. A Self-Evaluation/Reflection from the student.</li> </ul> </li> </ul> <p>These three requirements need to be met for every WIE activity.</p> <ul style="list-style-type: none"> <li>▪ Students should take note that their termination of internships without valid reason(s) or their being terminated from their internship will render them to have failed the WIE activity.</li> </ul>	
<b>Student Study Effort Expected</b>	Class contact:	
	▪	Hrs.

	▪	Hrs.
	Other student study effort:	
	▪ Internship	300 Hrs.
	▪	Hrs.
	Total student study effort	300 Hrs.
